

MUSEUM ACTIVITIES AND EXHIBITIONS 2017

PERMANENT EXHIBITION

Museo Casa de la Moneda is considered to be one of the world's leading museums of its kind. The 17 permanent exhibition rooms at Museo Casa de la Moneda take us through the history of money, from Greece to the present day. The displays include coins, banknotes, postage stamps, illustrations, medals, models, machinery and minting and printing tools. The origin of the museum's collection lies in the drawings, engravings, books, coins and medals gathered together by Tomás Francisco Prieto, Master Engraver of the Mints under Carlos III, for use in training his students.

GUIDED TOURS

Tour lasting around 90 minutes, during which the tour guide reveals the history and key points of the permanent exhibition. For groups of 20 people minimum, booked in advance.
